

February 2, 2010

Dear Valued Customer,

As you may already be aware, Arterioocyte Medical Systems' acquired the Magellan Autologous Platelet Separator business from Medtronic in October 2007. As part of that acquisition, Arterioocyte Medical and Medtronic continued serving your institutions needs through your local Medtronic representative. Effective February 15th, 2010, Arterioocyte Medical Systems will become your primary contact for all Magellan Autologous Platelet Separator Systems orders and inquiries. Together, Arterioocyte Medical Systems and Medtronic are committed to making this transition easy for you.

In order to ensure your institution gets entered into Arterioocyte's system appropriately, please fill out the attached "**New Customer Information Form**" and fax it to **508-497-9351**, then call the Arterioocyte Medical System's Customer Service Department to verify that your fax has been received. Also, please provide any vendor information requirements that your institution needs for ordering.

For **Customer Service, Complaints, Machine Service** and **Trouble Shooting** issues are all the same toll free number: 866-660-AMSI (2674).

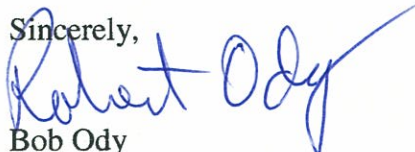

Attached for your quick reference is an updated **Magellan Product Ordering Code Sheet** that pairs your current Medtronic supplied Magellan product order codes with your new Arterioocyte Medical Systems Magellan product codes.

If you have further questions concerning this transition, please contact our Customer Service at 866-660-2674 to be put in touch with you Regional Sales Manager.

This change in service responsibility for your account is designed to allow Medtronic to continue increased focus and investment in Medtronic's core Perfusion and Blood Management Businesses and Arterioocyte Medical to focus on all your Platelet Rich Plasma needs.

We look forward to the opportunity to continue to provide you the best support possible for your institution.

Sincerely,

Bob Ody
Vice President, Sales
Arterioocyte Medical Systems, Inc.

Michael Kolb
Vice President, Sales
Medtronic, Inc.
